PHOTOGRAPHIC INTELLIGENCE BRIEF

CIA/RR-HTA

INSTALLATION: Amderma Fluorspar Mine  
LOCATION : Amderma, USSR  
B.E. NUMBER : None  
WAC NUMBER : 0049

BRIEF NO: SB-1-58

DATE : 11 August 1958  
Lat. : 69°45'N  
Long. : 61°40'E

25X1D

REFERENCE:

ATMP: 0049-8001-100, (Prov.) 1st Ed., April 1954  
SAC, DPIR No. S/260, dated 29 October 1957  
AFOIN, DPIR Airfields (A) No. 32, dated December 1956

REQUIREMENT RR/HTA/E/SI/58: Determine extent of fluorspar mining operations at Amderma, USSR.

REMARKS:

The fluorspar mining activity, located approximately one mile south of Amderma, is almost totally cloud covered on [REDACTED] photography, precluding any photographic analysis of mining operations. 25X1D

The town of Amderma appears to have doubled in size since previous 25X1D photographic cover [REDACTED] Amderma Airfield, located two miles west of Amderma, has a 8500-foot asphalt runway and appears active. Seventeen cargo/transport-type aircraft were observed on the airfield.
